- This Verification Opinion is based on the information made available to us and the engagement conditions detailed above. Hence, MIRDC cannot guarantee the accuracy or correctness of this information. MIRDC cannot be held liable by any party relying on or acting upon this Verification.

Role and Responsibility

The management of Inventec Corporation ensures that the development, maintenance and documentation of the greenhouse gas information system have met the standard requirements also responsible for assessing, determining and reporting GHG emissions information and providing other information needed to support GHG statement.

Metal Industries Research & Development Centre (MIRDC) provides the Verification Opinion according to the principles of verification body and an agreement with the above named client. The verification activities at the organization level of greenhouse gas emissions has been done from 2025-02-13 to 2025-05-07 according to the statement of GHG report for the period from 2024-01-01 to 2024-12-31.

Conclusion

The above verification opinions are based on the fair verification process of MIRDC and the 2024 Greenhouse Gas Statement of Inventec Corporation MIRDC implements the verification procedure according to the verification criteria, and the evidence results show that the greenhouse gas statement made by Inventec Corporation meets the substantive threshold and is a reasonable assurance level.

The individual emissions of Inventec Corporation and its consolidated subsidiaries are listed in the attached GHG emissions reporting information table.
